Authentic Connections: Audio, Video, Digital, Social

# Celebrating Women

At Now! Media, we don't just create content for women, we **celebrate** women. We go beyond "pink" to connect with women in all their dimensions. Our content ranges from comedy to parenting to soap operas to backyard wrestling!

# Pioneers in Authentic Content

It all began with *Bob & Sheri*. The first Morning Drive radio program with a woman in a leading role. It flew in the face of male-dominated shows. Finally giving women a voice they could relate to. *Bob & Sheri* proved a woman could lead a successful morning show. When then station owner, Jefferson-Pilot, decided to syndicate the show, it was again ahead of its time as the first syndicated morning show with a female lead.

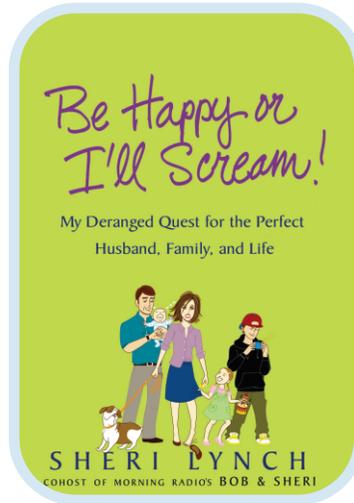

# Nationally Recognized

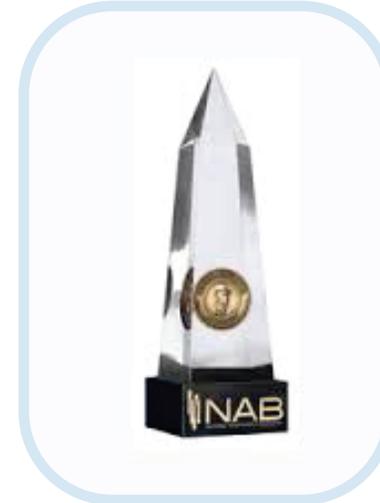

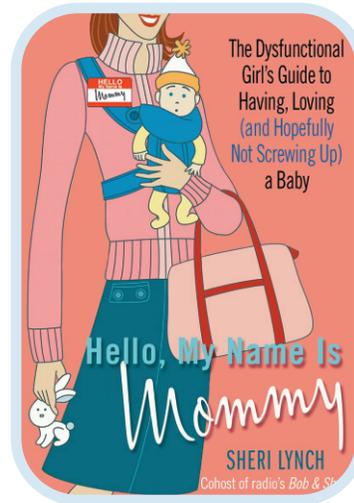

Since launching into syndication, *Bob & Sheri* has received dozens of awards and accolades from industry organizations, including the National Association of Broadcasters and American Women in Media. Sheri Lynch is regularly recognized as one of the Most Influential Women in Radio by Radio Ink magazine.

# Sheri Lynch

Sheri Lynch is the force of nature. She is one half... an equal half... of the morning duo, *Bob & Sheri*, heard weekdays on 70 stations across America and in over 170 countries via Armed Forces Radio. Sheri is a 'friend' to her listeners. Not only do her listeners follow her on social media She follows them to engage in true two-way conversations that break down the fourth wall between the host and the audience. In fact, Sheri's never NOT on social media. Those off-air interactions feed into what's on the air, and what happens on-air feeds into the off-air connections. It's a loop that wins her legions of loyal listeners.

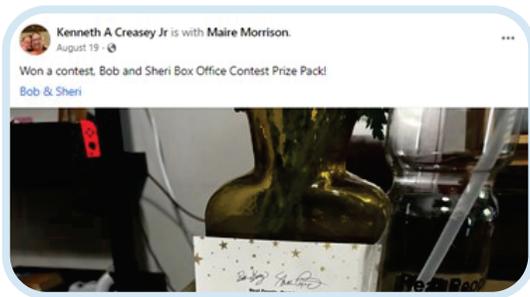

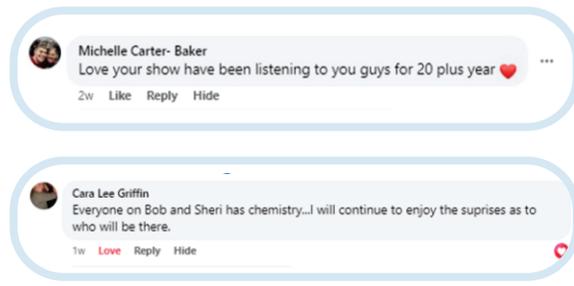

# Bob Lacey

Bob has a history of success, specifically with female audiences. His love of pop culture always gives him something to talk about and even took him to TV as the correspondent for a leading national entertainment program. When he met Sheri Lynch, he knew right away they would make great radio together. He miraculously convinced management to take a chance on someone with no on-air experience and the duo skyrocketed. An early champion of equal pay for women, Bob insisted that Sheri's salary match his. He pressured management, and, to this day, Bob and Sheri are compensated equally. That's why women connect with Bob. He 'gets it.' And he doesn't mind taking a few jabs on the chin for fun, either. Women know Bob is real, and they know the electric on-air chemistry he has with Sheri is genuine.

# Authentic Connections

Our content builds a bond between the talent and the audience. In Social Media, on-air, and in person, our listeners feel like they are part of an extended family.
